

HOW OLD IS THAT KITTEN?

Kittens are adorable at any age, but did you know that figuring out how old a kitten is can help determine what sort of care they need? It can be tricky to tell, but our at-a-glance kitten progression chart, featuring Darling the kitten, is here to help you out!

so fragile!

NEWBORN

When kittens are first born they are completely helpless—their **eyes are closed**, their **ears are folded**, and they can't stand, keep themselves warm, eliminate waste, or eat on their own. They rely on mom for everything!

ONE WEEK

Darling is starting to become **more aware of his surroundings!** At about seven days old, a kitten's ears will unfold and their eyes may start to open.

TWO WEEKS

Look at those blue peepers! Darling's **eyes are fully open**, and he is taking his **first wobbly steps**. Kittens this age start interacting more with each other, but still need mom.

a little wobbly!

THREE WEEKS

Darling's now playing with his siblings and getting more mobile. You should be able to **tell if kittens are boys or girls**. You can start providing a **litter box** and **wet food**.

FOUR WEEKS

Look how much Darling has grown! At four weeks kittens are **sturdy on their feet** and playing with each other, toys, and people.

let's play!

FIVE WEEKS

Get ready for a lot of fun! Darling is now full of energy and **plays exuberantly**. **Interacting with people** is important for kittens at this age. Darling is developing lots of personality!

SIX WEEKS

Every day Darling is getting more sure of himself through socialization and play. He's **using the litter box** and **eating cat food**—though he still visits mom for snacks and comfort.

SEVEN WEEKS

Darling is **almost fully weaned**, and continues to play and learn. Being **introduced to new people, places** in the home, and **other pets** is an important part of socialization.

so grown up!

EIGHT WEEKS

Two pounds! Darling now **weighs enough to be neutered**. He's also getting more skilled and adventurous. Darling is learning so much from his mom, siblings, and human caregiver.

NINE WEEKS

Looking pretty grown-up, Darling! At this age kittens are behaving and using their body language like adult cats. Darling is **eating all solid food**, and his eyes have gone from blue to yellow.

ready to take on the world!

TEN WEEKS

Darling is fully weaned, neutered, and—because he was socialized to people—**ready for his loving adoptive home**. They grow up so fast!
